A Retrofit to existing Equipment with
Sufficient room in the Enclosure

All Units available with Single Shot timers
Or Accumulating/Totalizing Timers

USING TOKENS ALLOWS YOU TO CHOOSE WHO MAY USE YOUR EQUIPMENT. YOU MIGHT NOT EVEN CHARGE FOR IT, BUT IT DOES GIVE YOU CONTROL. SOME SPECIAL TOKENS ARE AVAILABLE WITH SECURITY FEATURES THAT PREVENTS THE USE OF ARCADE OR BUS TOKENS. TOKENS ALLOW YOU TO VARY PRICING ACCORDING TO WHAT YOU CHARGE. IT MAY VARY BY SEASON OR BY DAY OF THE WEEK OR BY WHO IS PURCHASING THE SERVICE. AGAIN... YOU CONTROL IT!

TOKENS ALLOW YOU TO SET THE PRICE OR TO CONTROL WHO WILL USE THE FACILITY!
No Coins in the Boxes to Tempt Thieves

USING COINS IS CONVENIENT. IT ALLOWS ANYONE TO USE YOUR EQUIPMENT, BUT IT DOES GENERATE REVENUE TO PAY FOR THE USE. BY LIMITING THE TIME IT IS USED, YOU MINIMIZE WASTE. AND YOU INCREASE CUSTOMER SATISFACTION. HIGHER PRICED VENDS CAN BE DIFFICULT. FOR EXAMPLE - WHO CARRIES FIVE DOLLARS IN QUARTERS? IN SUCH CASES, THE USE OF SECURITY TOKENS OFFERS A BETTER ALTERNATIVE AND LESSENS THE CHANCE OF BREAK-INS, AND ELIMINATES OTHER TOKENS.

TOKEN or COIN METERS

Applied to many basic services to control usage

Signs Available with Instructions

BOAT WASH
Tokens only
Purchase tokens at launch ramp.
Machine is not for high speed use.
Even if pressure washer is not running.
Point wand downward when starting.
Keep wand a minimum of 2 feet from boat.
Do not use soap.
Return wand and hose to reel when finished.
We are not responsible for any injury or damage to boat.
Do not clean engine compartment or bilge with pressure washers.

THE PROPER CLEANING OF ALL BOATS & TRAILERS WILL HELP TO ELIMINATE THE TRANSFER OF ORGANISMS FROM ONE BODY OF WATER TO ANOTHER. HELP KEEP YOUR LOCAL ECO-SYSTEM IN BALANCE!

PRESSURE WASHERS FOR BOATS OR RV WASH

A CONVENIENCE FOR OWNERS. A NECESSITY FOR THE ENVIRONMENT! PREVENT CONTAMINATING OTHER BODIES OF WATER. BOATS MAY BE CLEANED AS PULLED FROM THE WATER. WASH ROAD GRIME FROM RV'S & ATV'S

STOP AQUATIC HITCHHIKERS!
Prevent the transport of nuisance species. Clean all recreational equipment. www.preventhitchhikers.com

METERS FOR SHOWERS

Control Water Usage Minimize Hot Water Use
Minimize Water Down The Drain!

The Aqua-MISER

The addition of a Valve and a Transformer allows the Meters to control showers or water hoses.

Two important issues with providing showers that are often overlooked, are customer satisfaction and how much wasted water.

If someone takes a very long shower and the next customer has only cold water, you have an unhappy customer.

If you must deal with furnishing water, heating the water and then you must dispose of the effluent, then you need to minimize the use of the showers.

These may also be token or coin. So tokens allow you to control WHO uses the showers, and HOW LONG they use them!

24VAC REPLACES ELBOW AT THE TOP OF RISER TUBE
Nylon Body
Shipped with Compression Fitting Couplings and Bushing As Shown

Meters with Valves are also used to control hoses for filling water tanks, or for hosing off boats and RV's. Water companies dispense water for farm use. Water is metered by time, not by volume.

KEEP OUR WATER CLEAN - USE PUMPOUTS

CONTROL ACCESS TO YOUR RESTROOMS

Using tokens will keep riffraff out, and allows you to restrict the use of your facility to your patrons. You control WHO and WHEN.

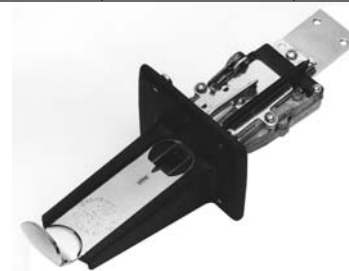

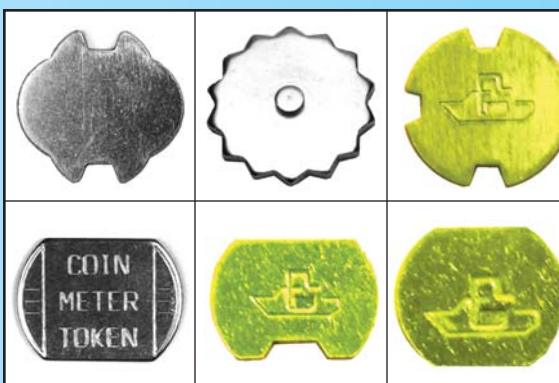

Promote cleanliness and security. No Keys to hand out and retrieve.

Coins allow you to recover some of the operating costs to offset supplies.

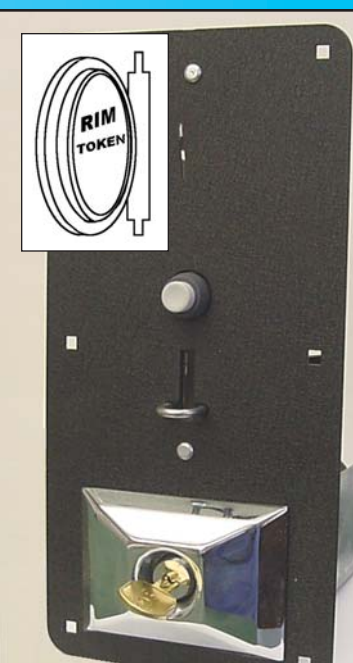

Units available to accept either token or quarters. Several token sizes from which to choose. Units can be made for some foreign coins as well.

ABOUT TOKENS

Tokens are available in a wide range of designs. Simple round tokens are all too common as they are used in transit systems and arcades. To allow higher priced vends, it is wise to use a security token. The token acceptor in the HM5 (Model 444) is made to accept many different unique designs, such as those illustrated at the left. These are not to scale but show the unique shape of a few of these. The HM6 security token is a "Rim" token as illustrated on the right. These are more costly than round tokens, but offer greater control and restricted access. Some have an imprint for Pumpouts or Showers.

The HM6 Meter with the timer/alarm has proven popular for many lighting applications but has also been used for controlling Infra-red heaters at driving ranges, and skating rinks. They have been used to control Jacuzzis and hot tubs.

The alarm becomes an important feature for customer satisfaction, as it allows the customer to decide if they wish to go on or add more coins for more time.

LIGHTING

Tennis Courts
Basketball Courts
Putt Putt Courses
Driving Ranges

Special Timers with an output for an alarm to tell patrons time is near expiration, so they can decide if they will allow time to elapse or put in more tokens or coins to extend the play time.

Great to Eliminate the waiting time on lights that have long recycle periods
